

# The Bedfordshire Natural History Society

# MIDWIFE TOADS

The Midwife Toad (*Alytes obstetricans*) has been in Bedfordshire for more than one hundred years.

The preferred method of recording is via the BNHS web-site Adnoto system at <https://www.bnhs.co.uk/adnoto/home/>

Alternatively, you can complete this form and return it by post, or email – contact details on the web-site.

If you have any questions please contact Helen Muir-Howie. Tel (01234) 306524 or by e-mail.

When completing the form please include;

- 1) Date
- 2) Location. The name of the site or an address.
- 3) Grid reference. Please give this to six figures.
- 4) Nature of the record. E.g. calls heard, tadpoles/toads seen. One individual/large colony etc
- 5) Other information. Do you know any of the history of the colony? Do you know where the toads came from? How long have they been there? Have any been moved from this site to other places, if so where to?

[illegible]
